

50.26.02. Climbable Sphinx

The sphinx, with the body of a lion and a human head, was considered a symbol of the kings' power. Our sphinx shares that typical shape in the side panelling and can be explored in its entirety. The panelling was created with great attention to detail, with the focus on the head of this playground feature; with mounted details such as a mouth, eyes and hair, it makes for a very eye-catching addition.
